SENIOR MOBILE ARCHITECT | FLUTTER LEAD | AI & FULL-STACK ENGINEER

PROFESSIONAL SUMMARY

Senior mobile architect and Flutter specialist with 8+ years of software engineering experience, including 6+ years delivering production-grade cross-platform applications. Proven track record architecting scalable solutions across e-commerce, EdTech, insurance, healthcare, fintech and AI-enabled products. Expertise in Clean Architecture, SOLID principles, BLoC/Cubit/Riverpod, Firebase, REST/GraphQL APIs, native Android and CI/CD pipelines. Adept at technical leadership, AI-assisted development workflows, Web3 integrations and real-time system design.

CORE TECHNICAL SKILLS

Mobile: Flutter, Dart, Android, Java, Kotlin, responsive/adaptive UI
Architecture: Clean Architecture, SOLID, modularization, MVVM, feature-based design
State Management: BLoC, Cubit, Riverpod, Provider, GetX
Backend & Data: Firebase Auth, Firestore, Storage, Cloud Functions, REST, GraphQL, SQLite, Hive
AI & Automation: Gemini, OpenAI APIs, AI-assisted workflows, Telegram automation
Web: React, TypeScript, Vite, Tailwind CSS, TanStack Query, WebSocket, Recharts
Trading / Systems: Python, Angel One SmartAPI, broker reconciliation, risk controls, systemd, Ubuntu/Linux
DevOps & Cloud: GitHub Actions, Codemagic, Fastlane, Linux, Oracle Cloud, Cloudflare Pages
Integrations: Google Maps, Mapbox, geofencing, payment gateways, POS/hardware SDKs
Engineering: Vitest, React Testing Library, pytest/unittest, production debugging, performance optimization, code reviews, Agile/Scrum

PROFESSIONAL EXPERIENCE

Buyzaar

Jan 2025 – Present | Founder & Lead Engineer | India
Technologies: Flutter Web, Dart, Firebase Auth, Firestore, Storage, Cloud Functions, Cubit/BLoC, Gemini, GitHub Actions, Firebase Hosting
Repo · Live

- Architected and delivered a full-stack hyperlocal commerce platform on Flutter Web and Firebase, encompassing customer shopping, cart, WhatsApp-based ordering and authenticated admin workflows.
- Defined feature-based Clean Architecture with Cubit/BLoC state management and reusable Firebase data/application layers for long-term maintainability.
- Implemented end-to-end product catalog, order lifecycle, real-time status updates, image storage/caching and responsive Material 3 UI.
- Integrated Gemini-powered content generation and GitHub-based product-data automation; owned product planning, architecture and production deployment.

Swing Delivery Stock Trading Bot

Jan 2025 – Present | Lead Engineer | Independent Project
Technologies: Python, Angel One SmartAPI, SQLite, Telegram, systemd, Ubuntu/Linux, REST APIs, market-data validation, risk controls
Repo

- Designed a Python-based NSE equity trading automation system leveraging Angel One SmartAPI, 5-minute market data, EMA 9/21, VWAP and volume confirmation signals.
- Built broker-verified execution, SQLite persistence, position reconciliation, duplicate-order protection, kill-switch and daily risk circuit breakers.
- Separated paper and live execution paths; packaged Ubuntu/systemd deployment with market-hours scheduling and health monitoring. Currently paper-ready.

Trading Bot Terminal Dashboard

Jan 2025 – Present | Full-Stack Engineer | Independent Project
Technologies: React 18, TypeScript 5.5, Vite 5, Tailwind CSS, TanStack React Query, Native WebSocket, Recharts, Vitest, React Testing Library, Cloudflare Pages
Repo · Live

- Developed a real-time trading observability SPA providing portfolio/P&L, positions, trades, orders, Telegram signals, risk/health metrics and analytics.

- Implemented event-driven data refresh with TanStack Query and a native WebSocket manager featuring exponential backoff, reconnect handling and event deduplication.
- Delivered a responsive dark-first terminal UI with charting, strict TypeScript contracts, automated frontend tests and production-grade deployment/security configuration.

Degreed Inc

Mar 2024 – Dec 2024 | Senior Mobile Architect (Flutter) | Bangalore, India

Technologies: Flutter, Dart, Clean Architecture, BLoC/Cubit, Firebase, REST APIs

App Store · Play Store

- Architected Flutter-based EdTech application modules using Clean Architecture and modular design principles for scalability and maintainability.
- Delivered complex business flows with Cubit/BLoC state management, prioritizing performance, stability and production readiness.

Rana Dev

Mar 2023 – Aug 2024 | Senior Software Architect (Flutter) | Washington, USA

Technologies: Flutter Web, Dart, Google Maps, asynchronous streams, responsive UI

- Designed responsive Flutter Web solutions with Google Maps integration for location-aware and real-time tracking experiences.
- Optimized asynchronous data pipelines and application responsiveness for production web workloads.

Mvpex Solution Pvt Ltd | Roadzen (Partner Company)

Apr 2022 – Mar 2023 | Software Developer (Flutter) | India

Technologies: Flutter, Dart, reusable packages, REST APIs, Firebase, modular architecture

Play Store · Package

- Built modular Flutter components for an enterprise insurance platform, establishing reusable architecture and consistent data-handling patterns.
- Developed reusable Flutter packages and SDK components (including rz_camera for image/video capture with edit support) to standardize capabilities across internal and client-facing products.

Webclues Infotech Pvt Ltd

Sep 2020 – Mar 2022 | Senior Flutter Developer | Ahmedabad, Gujarat

Technologies: Flutter, Dart, SQLite/offline caching, REST APIs, Firebase

Play Store

- Engineered NewsPod, a production news aggregator with dynamic rendering, offline caching, personalized feeds and multi-view reading modes for performance-focused delivery.
- Recognized with the Rising Star Award (2020) for architectural leadership and contribution to product delivery.

Ashutec Solutions Pvt Ltd

Sep 2019 – Aug 2020 | Flutter Developer | Ahmedabad, Gujarat

Technologies: Flutter, Dart, Firebase Realtime Database, responsive UI/UX

- Developed a cross-platform online examination application using Flutter and Firebase Realtime Database.
- Designed responsive UI/UX flows and optimized application behavior for consistent Android and iOS experiences.

SMG Info Solutions Pvt Ltd

Aug 2017 – Sep 2019 | Android Developer | Ahmedabad, Gujarat

Technologies: Android, Java, QR, MiFare, POS printing

- Delivered native Android solutions in Java for an enterprise visitor-management product.
- Integrated QR, MiFare and POS-printing workflows across the full Android application lifecycle.

Additional exposure: Web3 / fintech integrations, healthcare applications, AI-assisted search and content workflows.

EDUCATION

GLS University — M.Sc. Information Technology | 2015 – 2017 | Ahmedabad, Gujarat

KSV University — B.Sc. Information Technology | 2012 – 2015 | Gandhinagar, Gujarat

AWARDS & LANGUAGES

Award: Rising Star Award, Webclues Infotech (2020) | Languages: English, Hindi, Gujarati, Urdu
